Re: Rye Cycle Study, Consultation Draft November 2011

Dear Richard

On behalf of the Rother Environmental Group, I attach the Rye Cycle Study in hardcopy and on CD. The pdf can be downloaded on: www.rotherenvironmental.org.uk.

The purpose of the study to examine some of the issues affecting cyclists in and around Rye, East Sussex. It is intended as a consultation document to stimulate debate on how best to improve cycling facilities in and through the town.

Although this is a draft document only, our group does not have the resources nor the mandate to develop this study further and invites the Rye Town Council to take this task on, in conjunction with the District Council and County Council and any other local stakeholders who wish to participate in this process.

Yours sincerely

Dominic Manning
Committee member
Rother Environmental Group

Cc: Cllr Sam Souster, Rother DC
Cllr Lord Ampthill, Rother DC
Cllr Keith Glazier, ESCC & Rye Partnership
Gina Sanderson, RVA

REG campaigns for the protection and enhancement of the environment in Rother and the wider area. Our priorities for action are WASTE, ENERGY and WATER. We meet on the last Tuesday of the month at 7.15pm. All members and guests welcome.
