Apologies for the delay in replying to your email.

I have had conversations with Donna Hall who is responsible for this project and it is simply not feasible at this stage to alter the path. I also understand she has offered advice on several occasions on funding that RCS may like to pursue. It would appear this is your best option.

Hello Cllr, Timpe

I am contacting you to ask whether you and Ben Hook have been able to consider our comments on the starting point of the Rye end of the 1066 Walk as set out in our email of the 16th September.

Regards

Julian Luckett Chairman,
Planning Committee
Rye Conservation Society
